Attorneys for Plaintiff and Proposed Class

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN JOSE DIVISION

JOSEPH GARITE, on behalf of himself and all others similarly situated,

Plaintiff,

v.

INTUIT, INC.,

Defendant.

Case No.

CLASS ACTION COMPLAINT FOR DAMAGES, INJUNCTIVE RELIEF, AND EQUITABLE RELIEF FOR:

1. **NEGLIGENCE;**
2. **NEGLIGENCE *PER SE*;**
3. **BREACH OF IMPLIED CONTRACT;**
4. **INVASION OF PRIVACY;**
5. **UNJUST ENRICHMENT;**
6. **BREACH OF FIDUCIARY DUTY;**
7. **VIOLATION OF CALIFORNIA UNFAIR COMPETITION LAW;**
8. **CALIFORNIA CONSUMER PRIVACY ACT;**
9. **DECLARATORY JUDGMENT.**

DEMAND FOR JURY TRIAL

Joseph Garite ("Plaintiff"), through his attorneys, individually and on behalf of all others similarly situated, brings this Class Action Complaint against Defendant Intuit, Inc. ("Intuit" or "Defendant"), and its present, former, or future direct and indirect parent companies, subsidiaries,

affiliates, agents, and/or other related entities. Plaintiff alleges the following on information and belief—except as to his own actions, counsel's investigations, and facts of public record.

NATURE OF ACTION

1. This class action arises from Defendant's failure to protect highly sensitive data.

2. Defendant is a global financial technology company that serves approximately 100 million customers worldwide, offering services such as TurboTax, Credit Karma, QuickBooks, and Mailchimp.[1] It has 19 offices globally and had an annual revenue of $14.4 billion in 2023.[2]

3. As such, Defendant stores a litany of highly sensitive personal identifiable information ("PII") about its current and former customers. But Defendant lost control over that data when cybercriminals infiltrated its insufficiently protected computer systems in a data breach (the "Data Breach").

4. When Intuit finally disclosed the Data Breach to victims in March 2024, its Breach Notice obfuscated the nature of the breach and the threat it posed—refusing to tell its victims how many people were impacted, how the breach happened on Intuit's systems, when the breach first occurred, or when Intuit discovered the Data Breach. See Sample Notice of Data Breach sent to victims (Exhibit A).

5. It is unknown for precisely how long the cybercriminals had access to Defendant's network before the breach was discovered. In other words, Defendant had no effective means to prevent, detect, stop, or mitigate breaches of its systems—thereby allowing cybercriminals unrestricted access to its current and former customers' PII.

6. On information and belief, cybercriminals were able to breach Defendant's systems because Defendant failed to adequately train its employees on cybersecurity and failed to maintain reasonable security safeguards or protocols to protect the Class's PII. In short, Defendant's failures placed the Class's PII in a vulnerable position—rendering them easy targets for cybercriminals.

[1] About, Intuit Inc., https://www.intuit.com/company/ (last visited June 26, 2024).
[2] *Id.*

7. Plaintiff is a Data Breach victim. He brings this class action on behalf of himself, and all others harmed by Defendant's misconduct.

8. The exposure of one's PII to cybercriminals is a bell that cannot be unrung. Before this data breach, its current and former employees' private information was exactly that—private. Not anymore. Now, their private information is forever exposed and unsecure.

PARTIES

9. Plaintiff, Joseph Garite, is a natural person and citizen of New York. He resides in Staten Island, New York where he intends to remain.

10. Defendant, Intuit, Inc., is a Stock Corporation formed in Delaware and with its principal place of business at 2700 Coast Ave, Mountain View, California 94043.

JURISDICTION AND VENUE

11. This Court has subject matter jurisdiction over this action under the Class Action Fairness Act, 28 U.S.C. § 1332(d)(2). The amount in controversy exceeds $5 million, exclusive of interest and costs. Plaintiff is a citizen of a different state than Defendant. There are over 100 putative Class members.

12. This Court has personal jurisdiction over Defendant because it is headquartered in California, regularly conducts business in California, and has sufficient minimum contacts in California.

13. Venue is proper in this Court because Defendant's principal office is in this District, and because a substantial part of the events, acts, and omissions giving rise to Plaintiff's claims occurred in this District.

BACKGROUND

Defendant Collected and Stored the PII of Plaintiff and the Class

14. Defendant is a global financial technology company that serves approximately 100 million customers worldwide, offering services including TurboTax, Credit Karma, QuickBooks, and Mailchimp.[3] It has 19 offices globally and had an annual revenue of $14.4 billion in 2023.[4]

15. As part of its business, Defendant receives and maintains the PII of thousands of its current and former customers.

16. In collecting and maintaining the PII, Defendant agreed it would safeguard the data in accordance with its internal policies, state law, and federal law. After all, Plaintiff and Class members themselves took reasonable steps to secure their PII.

17. Under state and federal law, businesses like Defendant have duties to protect its current and former customers' PII and to notify them about breaches.

18. Defendant recognizes these duties, declaring in its "Privacy Policy" that:

a. "We believe that everyone has a right to privacy."[5]

b. "Unless you specifically ask us to delete your personal information, we retain your personal information as long as it is necessary to comply with our data retention requirements and provide you with services and the benefits of the Intuit Platform and successfully run our business."[6]

c. "There may be occasions where we are unable to fully delete, anonymize, or de-identify your personal information due to technical, legal, regulatory compliance, or other operational reasons. Where this is the case, we will take reasonable measures to securely isolate your personal information from any further processing until such time as we are able to delete, anonymize, or de-identify it."[7]

[4] *Id.*
[5] *Privacy Policy*, INTUIT, https://www.intuit.com/privacy/statement/ (last visited June 26, 2024).
[6] *Id.*
[7] *Id.*

d. "We use reasonable physical, technical and organizational safeguards that are designed to protect your personal information."[8]

Defendant's Data Breach

19. On information and belief, on or about February 27, 2024, Defendant discovered that it was hacked.[9]

20. Though Defendant's notice obfuscated when the Data Breach began, on information and belief the Breach occurred between December 23, 2023 and February 21, 2024.[10]

21. Worryingly, Defendant has already admitted that an "unauthorized party may have obtained information contained in a prior year's tax return or your current tax return in progress…" Ex. A.

22. Because of Defendant's Data Breach, at least the following types of PII were compromised:

a. names;

b. Social Security numbers;

c. addresses;

d. date of birth;

e. driver's license number;

f. financial information (e.g., salary and deductions); and

g. information of other individuals contained in the tax return. Ex. A.

23. The number of individuals injured by the Breach is unknown due to the obfuscating nature of Defendant's Breach Notice. Upon information and belief, the impacted persons include Defendant's current and former customers. Ex. A.

[8] *Id.*

[9] Data Breach Notifications, MAINE ATTY GEN, https://apps.web.maine.gov/online/aeviewer/ME/40/641a079b-bad6-4f74-93e0-714aa51dfb7b.shtml (last Visited June 26, 2024).

[10] *Id.*

24. And yet, Defendant did not begin notifying victims until March 15, 2024 and continued sending notices to victims until at least April 17, 2024[11]—three to four months after the Data Breach occurred. Ex. A.

25. Thus, Defendant kept the Class in the dark—thereby depriving the Class of the opportunity to try and mitigate their injuries in a timely manner.

26. And when Defendant did notify Plaintiff and the Class of the Data Breach, Defendant acknowledged that the Data Breach created a present, continuing, and significant risk of suffering identity theft, encouraging Plaintiff and the Class "take the following steps":

a. "Enroll in Identity Protection and Credit Monitoring Services;"

b. "Access Identity Restoration Services if Needed;"

c. "Order Your Free Credit Report;"

d. "Report Incidents;"

e. "Obtain A Security Freeze;" and

f. "Consider Placing a Fraud Alert on Your Credit File." Ex. A.

27. Defendant failed its duties when its inadequate security practices caused the Data Breach. In other words, Defendant's negligence is evidenced by its failure to prevent the Data Breach and stop cybercriminals from accessing the PII. And thus, Defendant caused widespread injury and monetary damages.

28. Since the breach, Defendant promised that is "has taken various measures to help ensure that the accounts of affected customers are protected."[12] But this is too little too late. Simply put, these measures—which Defendant now recognizes as necessary—should have been implemented *before* the Data Breach.

29. On information and belief, Defendant failed to adequately train its employees on reasonable cybersecurity protocols or implement reasonable security measures.

---

[11] Breach Notice, Commonwealth of Massachusetts, chrome-extension://efaidnbmnnnibpcajpcglclefindmkaj/https://www.mass.gov/doc/assigned-data-breach-number-2024-761-intuit-inc/download (last visited June 26, 2024).

[12] *Id*.

30. Further, the Notice of Data Breach shows that Defendant cannot—or will not—determine the full scope of the Data Breach, as Defendant has been unable to determine precisely when the information was stolen and how many customers were impacted.

31. Defendant has done little to remedy its Data Breach. True, Defendant has offered some victims credit monitoring and identity related services. But upon information and belief, such services are wholly insufficient to compensate Plaintiff and Class members for the injuries that Defendant inflicted upon them.

32. Because of Defendant's Data Breach, the sensitive PII of Plaintiff and Class members was placed into the hands of cybercriminals—inflicting numerous injuries and significant damages upon Plaintiff and Class members.

33. Worryingly, this Data Breach appears to be part and parcel of Defendant's ***pattern of negligent data security***. TurboTax users were previously targeted in a series of account takeover attacks in 2014, 2015, and 2019.[13] The method of attack in 2019 was "nearly identical" to the attacks in 2014 and 2015 where "hackers were able to access the complete identities of undisclosed numbers of users by gaining access to their accounts and looking up their previously filed tax returns."[14] Then in 2021, Intuit again notified TurboTax customers that their personal and financial information had been accessed by an unauthorized actor.[15] In March 2022, Intuit suffered another cyberattack in which "319 Mailchimp accounts were viewed and 'audience data was exported from 102 of those accounts.'"[16]

---

[16] *Intuit Sued After Hackers Stole Crypto from Customers*, THESTREET, https://www.thestreet.com/crypto/investing/intuit-sued-after-hackers-stole-crypto-from-customers (last accessed June 26, 2024).

34. Moreover, upon information and belief, the cybercriminals in question are particularly sophisticated. After all, the cybercriminals: (1) defeated the relevant data security systems, (2) gained actual access to sensitive data, and (3) successfully "obtained information." Ex. A.

35. And as the Harvard Business Review notes, such "[c]ybercriminals frequently use the Dark Web—a hub of criminal and illicit activity—to sell data from companies that they have gained unauthorized access to through credential stuffing attacks, phishing attacks, [or] hacking."[17]

36. Thus, on information and belief, Plaintiff's and the Class's stolen PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

Plaintiff's Experiences and Injuries

37. Plaintiff Joseph Garite is a former customer of Defendant—having been a TurboTax user since between approximately 2012 and 2013.

38. Thus, Defendant obtained and maintained Plaintiff's PII.

39. As a result, Plaintiff was injured by Defendant's Data Breach.

40. As a condition of receiving services from Defendant, Plaintiff provided Defendant with his PII. Defendant used that PII to facilitate its services and required Plaintiff to provide his PII in order to obtain services.

41. Plaintiff provided his PII to Defendant and trusted the company would use reasonable measures to protect it according to Defendant's internal policies, as well as state and federal law. Defendant obtained and continues to maintain Plaintiff's PII and has a continuing legal duty and obligation to protect that PII from unauthorized access and disclosure.

42. Plaintiff reasonably understood that a portion of the funds paid to Defendant for services would be used to pay for adequate cybersecurity and protection of PII.

[17] Brenda R. Sharton, *Your Company's Data Is for Sale on the Dark Web. Should You Buy It Back?*, HARVARD BUS. REV. (Jan. 4, 2023) https://hbr.org/2023/01/your-companys-data-is-for-sale-on-the-dark-web-should-you-buy-it-back.

43. Plaintiff does not recall ever learning that his information was compromised in a data breach incident—other than the breach at issue here.

44. Thus, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

45. Through its Data Breach, Defendant compromised at least Plaintiff's:

a. name;

b. Social Security number;

c. address;

d. date of birth;

e. driver's license information;

f. financial information (e.g., salary and deductions); and

g. information of other individuals contained in the tax return. Ex. A.

46. Plaintiff has *already* suffered from identity theft and fraud, in the form of receiving a letter dated May 31, 2024 from someone claiming to be the IRS. The letter contained highly sensitive information including Plaintiff's Social Security number, the exact amount Plaintiff owed on taxes in 2023, and the details of his proposal for a payment plan. Further, the letter claimed that Plaintiff owed fees and interest from previous years and threatened to charge penalties if Plaintiff did not send a check or money order and provide his name, address, taxpayer identification number, tax form, and telephone number. When Plaintiff contacted the IRS, they confirmed that the letter was fraudulent.

47. Plaintiff has spent five (5) hours attempting to mitigate the fallout of the Data Breach, including, *inter alia*,

a. reviewing his accounts for further identity theft and fraud;

b. reviewing paperwork related to the breach;

c. communicating with the IRS regarding the fraudulent mail; and

d. putting a lock on his credit.

48. And in the aftermath of the Data Breach, Plaintiff has suffered from a spike in spam and scam text messages and mail, including mail offers for loans and credit cards.

49. Once an individual's PII is for sale and access on the dark web, as Plaintiffs' PII is here as a result of the Breach, cybercriminals are able to use the stolen and compromised to gather and steal even more information.[18] On information and belief, Plaintiff's phone number was compromised as a result of the Data Breach.

50. Plaintiff fears for his personal financial security and worries about what information was exposed in the Data Breach.

51. Because of Defendant's Data Breach, Plaintiff has suffered—and will continue to suffer from—anxiety, sleep disruption, stress, fear, and frustration. Such injuries go far beyond allegations of mere worry or inconvenience. Rather, Plaintiff's injuries are precisely the type of injuries that the law contemplates and addresses.

52. Plaintiff suffered actual injury from the exposure and theft of his PII—which violates his rights to privacy.

53. Plaintiff suffered actual injury in the form of damages to and diminution in the value of his PII. After all, PII is a form of intangible property—property that Defendant was required to adequately protect.

54. Plaintiff suffered imminent and impending injury arising from the substantially increased risk of fraud, misuse, and identity theft—all because Defendant's Data Breach placed Plaintiff's PII right in the hands of criminals.

55. Because of the Data Breach, Plaintiff anticipates spending considerable amounts of time and money to try and mitigate his injuries.

[18] What do Hackers do with Stolen Information, Aura, https://www.aura.com/learn/what-do-hackers-do-with-stolen-information (last visited June 26, 2024).

56. Today, Plaintiff has a continuing interest in ensuring that his PII—which, upon information and belief, remains backed up in Defendant's possession—is protected and safeguarded from additional breaches.

Plaintiff and the Proposed Class Face Significant Risk of Continued Identity Theft

57. Because of Defendant's failure to prevent the Data Breach, Plaintiff and Class members suffered—and will continue to suffer—damages. These damages include, *inter alia*, monetary losses, lost time, anxiety, and emotional distress. Also, they suffered or are at an increased risk of suffering:

a. loss of the opportunity to control how their PII is used;

b. diminution in value of their PII;

c. compromise and continuing publication of their PII;

d. out-of-pocket costs from trying to prevent, detect, and recovery from identity theft and fraud;

e. lost opportunity costs and wages from spending time trying to mitigate the fallout of the Data Breach by, *inter alia*, preventing, detecting, contesting, and recovering from identify theft and fraud;

f. delay in receipt of tax refund monies;

g. unauthorized use of their stolen PII; and

h. continued risk to their PII—which remains in Defendant's possession—and is thus as risk for futures breaches so long as Defendant fails to take appropriate measures to protect the PII.

58. Stolen PII is one of the most valuable commodities on the criminal information black market. According to Experian, a credit-monitoring service, stolen PII can be worth up to $1,000.00 depending on the type of information obtained.

59. The value of Plaintiff and Class's PII on the black market is considerable. Stolen PII trades on the black market for years. And criminals frequently post and sell stolen information openly and directly on the "Dark Web"—further exposing the information.

60. It can take victims years to discover such identity theft and fraud. This gives criminals plenty of time to sell the PII far and wide.

61. One way that criminals profit from stolen PII is by creating comprehensive dossiers on individuals called "Fullz" packages. These dossiers are both shockingly accurate and comprehensive. Criminals create them by cross-referencing and combining two sources of data—first the stolen PII, and second, unregulated data found elsewhere on the internet (like phone numbers, emails, addresses, etc.).

62. The development of "Fullz" packages means that the PII exposed in the Data Breach can easily be linked to data of Plaintiff and the Class that is available on the internet.

63. In other words, even if certain information such as emails, phone numbers, or credit card numbers may not be included in the PII stolen by the cyber-criminals in the Data Breach, criminals can easily create a Fullz package and sell it at a higher price to unscrupulous operators and criminals (such as illegal and scam telemarketers) over and over. That is exactly what is happening to Plaintiff and Class members, and it is reasonable for any trier of fact, including this Court or a jury, to find that Plaintiff and other Class members' stolen PII is being misused, and that such misuse is fairly traceable to the Data Breach.

64. Defendant disclosed the PII of Plaintiff and Class members for criminals to use in the conduct of criminal activity. Specifically, Defendant opened up, disclosed, and exposed the PII of Plaintiff and Class members to people engaged in disruptive and unlawful business practices and tactics, including online account hacking, unauthorized use of financial accounts, and fraudulent attempts to open unauthorized financial accounts (i.e., identity fraud), all using the stolen PII.

65. Defendant's failure to promptly and properly notify Plaintiff and Class members of the Data Breach exacerbated Plaintiff and Class members' injury by depriving them of the earliest ability to take appropriate measures to protect their PII and take other necessary steps to mitigate the harm caused by the Data Breach.

Defendant Knew—Or Should Have Known—of the Risk of a Data Breach

66. Defendant's data security obligations were particularly important given the substantial increase in cyberattacks and/or data breaches in recent years.

67. In 2021, a record 1,862 data breaches occurred, exposing approximately 293,927,708 sensitive records—a 68% increase from 2020.[19]

68. Indeed, cyberattacks have become so notorious that the Federal Bureau of Investigation ("FBI") and U.S. Secret Service issue warnings to potential targets, so they are aware of, and prepared for, a potential attack. As one report explained, "[e]ntities like smaller municipalities and hospitals are attractive to ransomware criminals . . . because they often have lesser IT defenses and a high incentive to regain access to their data quickly."[20]

69. Therefore, the increase in such attacks, and attendant risk of future attacks, was widely known to the public and to anyone in Defendant's industry, including Defendant.

Defendant Failed to Follow FTC Guidelines

70. According to the Federal Trade Commission ("FTC"), the need for data security should be factored into all business decision-making. Thus, the FTC issued numerous guidelines identifying best data security practices that businesses—like Defendant—should use to protect against unlawful data exposure.

71. In 2016, the FTC updated its publication, *Protecting Personal Information: A Guide for Business*. There, the FTC set guidelines for what data security principles and practices businesses must use.[21] The FTC declared that, *inter alia*, businesses must:

a. protect the personal customer information that they keep;

---

[19] *See 2021 Data Breach Annual Report*, IDENTITY THEFT RESOURCE CENTER (Jan. 2022) https://notified.idtheftcenter.org/s/.

[20] Ben Kochman, *FBI, Secret Service Warn of Targeted Ransomware*, LAW360 (Nov. 18, 2019), https://www.law360.com/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware.

[21] *Protecting Personal Information: A Guide for Business,* FED TRADE COMMISSION (Oct. 2016) https://www.ftc.gov/system/files/documents/plain-language/pdf-0136_proteting-personal-information.pdf.

b. properly dispose of personal information that is no longer needed;

c. encrypt information stored on computer networks;

d. understand their network's vulnerabilities; and

e. implement policies to correct security problems.

72. The guidelines also recommend that businesses watch for the transmission of large amounts of data out of the system—and then have a response plan ready for such a breach.

73. Furthermore, the FTC explains that companies must:

a. not maintain information longer than is needed to authorize a transaction;

b. limit access to sensitive data;

c. require complex passwords to be used on networks;

d. use industry-tested methods for security;

e. monitor for suspicious activity on the network; and

f. verify that third-party service providers use reasonable security measures.

74. The FTC brings enforcement actions against businesses for failing to protect customer data adequately and reasonably. Thus, the FTC treats the failure—to use reasonable and appropriate measures to protect against unauthorized access to confidential consumer data—as an unfair act or practice prohibited by Section 5 of the Federal Trade Commission Act ("FTCA"), 15 U.S.C. § 45. Orders resulting from these actions further clarify the measures businesses must take to meet their data security obligations.

75. In short, Defendant's failure to use reasonable and appropriate measures to protect against unauthorized access to its current and former customers' data constitutes an unfair act or practice prohibited by Section 5 of the FTCA, 15 U.S.C. § 45.

Defendant Failed to Follow Industry Standards

76. Several best practices have been identified that—at a *minimum*—should be implemented by businesses like Defendant. These industry standards include: educating all employees; strong passwords; multi-layer security, including firewalls, anti-virus, and anti-

malware software; encryption (making data unreadable without a key); multi-factor authentication; backup data; and limiting which employees can access sensitive data.

77. Other industry standard best practices include: installing appropriate malware detection software; monitoring and limiting the network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and routers; monitoring and protection of physical security systems; protection against any possible communication system; and training staff regarding critical points.

78. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

79. These frameworks are applicable and accepted industry standards. And by failing to comply with these accepted standards, Defendant opened the door to the criminals—thereby causing the Data Breach.

CLASS ACTION ALLEGATIONS

80. Plaintiff brings this class action under Fed. R. Civ. P. 23(a), 23(b)(2), and 23(b)(3), individually and on behalf of all members of the following class:

> All individuals residing in the United States whose PII was compromised in the Data Breach discovered by Intuit in February 2024, including all those individuals who received notice of the breach.

81. Excluded from the Class are Defendant, its agents, affiliates, parents, subsidiaries, any entity in which Defendant has a controlling interest, any Defendant officer or director, any successor or assign, and any Judge who adjudicates this case, including their staff and immediate family.

82. Plaintiff reserves the right to amend the class definition.

83. Certification of Plaintiff's claims for class-wide treatment is appropriate because Plaintiff can prove the elements of his claims on class-wide bases using the same evidence as would be used to prove those elements in individual actions asserting the same claims.

84. Ascertainability. All members of the proposed Class are readily ascertainable from information in Defendant's custody and control. After all, Defendant already identified some individuals and sent them data breach notices.

85. Numerosity. The Class members are so numerous that joinder of all Class members is impracticable. Upon information and belief, the proposed Class includes at least thousands of members.

86. Typicality. Plaintiff's claims are typical of Class members' claims as each arises from the same Data Breach, the same alleged violations by Defendant, and the same unreasonable manner of notifying individuals about the Data Breach.

87. Adequacy. Plaintiff will fairly and adequately protect the proposed Class's common interests. His interests do not conflict with Class members' interests. And Plaintiff has retained counsel—including lead counsel—that is experienced in complex class action litigation and data privacy to prosecute this action on the Class's behalf.

88. Commonality and Predominance. Plaintiff's and the Class's claims raise predominantly common fact and legal questions—which predominate over any questions affecting individual Class members—for which a class wide proceeding can answer for all Class members. In fact, a class wide proceeding is necessary to answer the following questions:

a. if Defendant had a duty to use reasonable care in safeguarding Plaintiff's and the Class's PII;

b. if Defendant failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the information compromised in the Data Breach;

c. if Defendant were negligent in maintaining, protecting, and securing PII;

d. if Defendant breached contract promises to safeguard Plaintiff and the Class's PII;

e. if Defendant took reasonable measures to determine the extent of the Data Breach after discovering it;

f. if Defendant's Breach Notice was reasonable;

g. if the Data Breach caused Plaintiff and the Class injuries;

h. what the proper damages measure is; and

i. if Plaintiff and the Class are entitled to damages, treble damages, and or injunctive relief.

89. Superiority. A class action will provide substantial benefits and is superior to all other available means for the fair and efficient adjudication of this controversy. The damages or other financial detriment suffered by individual Class members are relatively small compared to the burden and expense that individual litigation against Defendant would require. Thus, it would be practically impossible for Class members, on an individual basis, to obtain effective redress for their injuries. Not only would individualized litigation increase the delay and expense to all parties and the courts, but individualized litigation would also create the danger of inconsistent or contradictory judgments arising from the same set of facts. By contrast, the class action device provides the benefits of adjudication of these issues in a single proceeding, ensures economies of scale, provides comprehensive supervision by a single court, and presents no unusual management difficulties.

FIRST CAUSE OF ACTION
Negligence
(On Behalf of Plaintiff and the Class)

90. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

91. Plaintiff and the Class entrusted their PII to Defendant on the premise and with the understanding that Defendant would safeguard their PII, use their PII for business purposes only, and/or not disclose their PII to unauthorized third parties.

92. Defendant owed a duty of care to Plaintiff and Class members because it was foreseeable that Defendant's failure—to use adequate data security in accordance with industry standards for data security—would compromise their PII in a data breach. And here, that foreseeable danger came to pass.

93. Defendant has full knowledge of the sensitivity of the PII and the types of harm that Plaintiff and the Class could and would suffer if their PII was wrongfully disclosed.

94. Defendant owed these duties to Plaintiff and Class members because they are members of a well-defined, foreseeable, and probable class of individuals whom Defendant knew or should have known would suffer injury-in-fact from Defendant's inadequate security practices. After all, Defendant actively sought and obtained Plaintiff and Class members' PII.

95. Defendant owed—to Plaintiff and Class members—at least the following duties to:

a. exercise reasonable care in handling and using the PII in its care and custody;

b. implement industry-standard security procedures sufficient to reasonably protect the information from a data breach, theft, and unauthorized;

c. promptly detect attempts at unauthorized access;

d. notify Plaintiff and Class members within a reasonable timeframe of any breach to the security of their PII.

96. Thus, Defendant owed a duty to timely and accurately disclose to Plaintiff and Class members the scope, nature, and occurrence of the Data Breach. After all, this duty is required and necessary for Plaintiff and Class members to take appropriate measures to protect their PII, to be vigilant in the face of an increased risk of harm, and to take other necessary steps to mitigate the harm caused by the Data Breach.

97. Defendant also had a duty to exercise appropriate clearinghouse practices to remove PII it was no longer required to retain under applicable regulations.

98. Defendant knew or reasonably should have known that the failure to exercise due care in the collecting, storing, and using of the PII of Plaintiff and the Class involved an unreasonable risk of harm to Plaintiff and the Class, even if the harm occurred through the criminal acts of a third party.

99. Defendant's duty to use reasonable security measures arose because of the special relationship that existed between Defendant and Plaintiff and the Class. That special relationship arose because Plaintiff and the Class entrusted Defendant with their confidential PII, a necessary part of obtaining services from Defendant.

100. The risk that unauthorized persons would attempt to gain access to the PII and misuse it was foreseeable. Given that Defendant holds vast amounts of PII, it was inevitable that unauthorized individuals would attempt to access Defendant's databases containing the PII — whether by malware or otherwise.

101. PII is highly valuable, and Defendant knew, or should have known, the risk in obtaining, using, handling, emailing, and storing the PII of Plaintiff and Class members' and the importance of exercising reasonable care in handling it.

102. Defendant improperly and inadequately safeguarded the PII of Plaintiff and the Class in deviation of standard industry rules, regulations, and practices at the time of the Data Breach.

103. Defendant breached these duties as evidenced by the Data Breach.

104. Defendant acted with wanton and reckless disregard for the security and confidentiality of Plaintiff's and Class members' PII by:

a. disclosing and providing access to this information to third parties and

b. failing to properly supervise both the way the PII was stored, used, and exchanged, and those in its employ who were responsible for making that happen.

105. Defendant breached its duties by failing to exercise reasonable care in supervising its agents, contractors, vendors, and suppliers, and in handling and securing the personal

information and PII of Plaintiff and Class members which actually and proximately caused the Data Breach and Plaintiff and Class members' injury.

106. Defendant further breached its duties by failing to provide reasonably timely notice of the Data Breach to Plaintiff and Class members, which actually and proximately caused and exacerbated the harm from the Data Breach and Plaintiff and Class members' injuries-in-fact.

107. Defendant has admitted that the PII of Plaintiff and the Class was wrongfully lost and disclosed to unauthorized third persons because of the Data Breach.

108. As a direct and traceable result of Defendant's negligence and/or negligent supervision, Plaintiff and Class members have suffered or will suffer damages, including monetary damages, increased risk of future harm, embarrassment, humiliation, frustration, and emotional distress.

109. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

110. Defendant's breach of its common-law duties to exercise reasonable care and its failures and negligence actually and proximately caused Plaintiff and Class members actual, tangible, injury-in-fact and damages, including, without limitation, the theft of their PII by criminals, improper disclosure of their PII, lost benefit of their bargain, lost value of their PII, and lost time and money incurred to mitigate and remediate the effects of the Data Breach that resulted from and were caused by Defendant's negligence, which injury-in-fact and damages are ongoing, imminent, immediate, and which they continue to face.

SECOND CAUSE OF ACTION
Negligence *per se*
(On Behalf of Plaintiff and the Class)

111. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

112. Under the FTC Act, 15 U.S.C. § 45, Defendant had a duty to use fair and adequate computer systems and data security practices to safeguard Plaintiff's and Class members' PII.

113. Section 5 of the FTC Act prohibits "unfair . . . practices in or affecting commerce," including, as interpreted and enforced by the FTC, the unfair act or practice by businesses, such as Defendant, of failing to use reasonable measures to protect the PII entrusted to it. The FTC publications and orders promulgated pursuant to the FTC Act also form part of the basis of Defendant's duty to protect Plaintiff and the Class members' sensitive PII.

114. Defendant breached its respective duties to Plaintiff and Class members under the FTC Act by failing to provide fair, reasonable, or adequate computer systems and data security practices to safeguard PII.

115. Defendant violated its duty under Section 5 of the FTC Act by failing to use reasonable measures to protect PII and not complying with applicable industry standards as described in detail herein. Defendant's conduct was particularly unreasonable given the nature and amount of PII Defendant had collected and stored and the foreseeable consequences of a data breach, including, specifically, the immense damages that would result to individuals in the event of a breach, which ultimately came to pass.

116. The harm that has occurred is the type of harm the FTC Act is intended to guard against. Indeed, the FTC has pursued numerous enforcement actions against businesses that, because of their failure to employ reasonable data security measures and avoid unfair and deceptive practices, caused the same harm as that suffered by Plaintiff and members of the Class.

117. But for Defendant's wrongful and negligent breach of its duties owed, Plaintiff and Class members would not have been injured.

118. The injury and harm suffered by Plaintiff and Class members was the reasonably foreseeable result of Defendant's breach of their duties. Defendant knew or should have known that Defendant was failing to meet its duties and that its breach would cause Plaintiff and members of the Class to suffer the foreseeable harms associated with the exposure of their PII.

119. Defendant's various violations and its failure to comply with applicable laws and regulations constitutes negligence *per se*.

120. As a direct and proximate result of Defendant's negligence *per se*, Plaintiff and Class members have suffered and will continue to suffer numerous injuries (as detailed *supra*).

THIRD CAUSE OF ACTION
Breach of Implied Contract
(On Behalf of Plaintiff and the Class)

121. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

122. Plaintiff and Class members were required to provide their PII to Defendant as a condition of receiving services provided by Defendant. Plaintiff and Class members provided their PII to Defendant in exchange for Defendant's services.

123. Plaintiff and Class members reasonably understood that a portion of the funds they paid Defendant would be used to pay for adequate cybersecurity measures.

124. Plaintiff and Class members reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

125. Plaintiff and the Class members accepted Defendant's offers by disclosing their PII to Defendant in exchange for services.

126. In turn, and through internal policies, Defendant agreed to protect and not disclose the PII to unauthorized persons.

127. In its Privacy Policy, Defendant represented that they had a legal duty to protect Plaintiff's and Class Member's PII.

128. Implicit in the parties' agreement was that Defendant would provide Plaintiff and Class members with prompt and adequate notice of all unauthorized access and/or theft of their PII.

129. After all, Plaintiff and Class members would not have entrusted their PII to Defendant in the absence of such an agreement with Defendant.

130. Plaintiff and the Class fully performed their obligations under the implied contracts with Defendant.

131. The covenant of good faith and fair dealing is an element of every contract. Thus, parties must act with honesty in fact in the conduct or transactions concerned. Good faith and fair dealing, in connection with executing contracts and discharging performance and other duties according to their terms, means preserving the spirit—and not merely the letter—of the bargain. In short, the parties to a contract are mutually obligated to comply with the substance of their contract in addition to its form.

132. Subterfuge and evasion violate the duty of good faith in performance even when an actor believes their conduct to be justified. Bad faith may be overt or consist of inaction. And fair dealing may require more than honesty.

133. Defendant materially breached the contracts it entered with Plaintiff and Class members by:

a. failing to safeguard their information;

b. failing to notify them promptly of the intrusion into its computer systems that compromised such information.

c. failing to comply with industry standards;

d. failing to comply with the legal obligations necessarily incorporated into the agreements; and

e. failing to ensure the confidentiality and integrity of the electronic PII that Defendant created, received, maintained, and transmitted.

134. In these and other ways, Defendant violated its duty of good faith and fair dealing.

135. Defendant's material breaches were the direct and proximate cause of Plaintiff's and Class members' injuries (as detailed *supra*).

136. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

137. Plaintiff and Class members performed as required under the relevant agreements, or such performance was waived by Defendant's conduct.

FOURTH CAUSE OF ACTION
Invasion of Privacy
(On Behalf of Plaintiff and the Class)

138. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

139. Plaintiff and the Class had a legitimate expectation of privacy regarding their highly sensitive and confidential PII and were accordingly entitled to the protection of this information against disclosure to unauthorized third parties.

140. Defendant owed a duty to its current and former customers, including Plaintiff and the Class, to keep this information confidential.

141. The unauthorized acquisition (i.e., theft) by a third party of Plaintiff and Class members' PII is highly offensive to a reasonable person.

142. The intrusion was into a place or thing which was private and entitled to be private. Plaintiff and the Class disclosed their sensitive and confidential information to Defendant, but did so privately, with the intention that their information would be kept confidential and protected from unauthorized disclosure. Plaintiff and the Class were reasonable in their belief that such information would be kept private and would not be disclosed without their authorization.

143. The Data Breach constitutes an intentional interference with Plaintiff's and the Class's interest in solitude or seclusion, either as to their person or as to their private affairs or concerns, of a kind that would be highly offensive to a reasonable person.

144. Defendant acted with a knowing state of mind when it permitted the Data Breach because it knew its information security practices were inadequate.

145. Defendant acted with a knowing state of mind when it failed to notify Plaintiff and the Class in a timely fashion about the Data Breach, thereby materially impairing their mitigation efforts.

146. Acting with knowledge, Defendant had notice and knew that its inadequate cybersecurity practices would cause injury to Plaintiff and the Class.

147. As a proximate result of Defendant's acts and omissions, the private and sensitive PII of Plaintiff and the Class were stolen by a third party and is now available for disclosure and

redisclosure without authorization, causing Plaintiff and the Class to suffer damages (as detailed *supra*).

148. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

149. Unless and until enjoined and restrained by order of this Court, Defendant's wrongful conduct will continue to cause great and irreparable injury to Plaintiff and the Class since their PII are still maintained by Defendant with their inadequate cybersecurity system and policies.

150. Plaintiff and the Class have no adequate remedy at law for the injuries relating to Defendant's continued possession of their sensitive and confidential records. A judgment for monetary damages will not end Defendant's inability to safeguard the PII of Plaintiff and the Class.

151. In addition to injunctive relief, Plaintiff, on behalf of himself and the other Class members, also seeks compensatory damages for Defendant's invasion of privacy, which includes the value of the privacy interest invaded by Defendant, the costs of future monitoring of their credit history for identity theft and fraud, plus prejudgment interest and costs.

FIFTH CAUSE OF ACTION
Unjust Enrichment
(On Behalf of Plaintiff and the Class)

152. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

153. This claim is pleaded in the alternative to the breach of implied contract claim.

154. Plaintiff and Class members conferred a benefit upon Defendant. After all, Defendant benefitted from using their PII and payment to facilitate services.

155. Defendant appreciated or had knowledge of the benefits it received from Plaintiff and Class members.

156. Plaintiff and Class members reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

157. Defendant enriched itself by saving the costs they reasonably should have expended on data security measures to secure Plaintiff's and Class members' PII.

158. Instead of providing a reasonable level of security, or retention policies, that would have prevented the Data Breach, Defendant instead calculated to avoid its data security obligations at the expense of Plaintiff and Class members by utilizing cheaper, ineffective security measures. Plaintiff and Class members, on the other hand, suffered as a direct and proximate result of Defendant's failure to provide the requisite security.

159. Under principles of equity and good conscience, Defendant should not be permitted to retain the full value of Plaintiff's and Class members' PII and payment because Defendant failed to adequately protect their PII.

160. Plaintiff and Class members have no adequate remedy at law.

161. Defendant should be compelled to disgorge into a common fund—for the benefit of Plaintiff and Class members—all unlawful or inequitable proceeds that it received because of its misconduct.

SIXTH CAUSE OF ACTION
Breach of Fiduciary Duty
(On Behalf of Plaintiff and the Class)

162. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

163. Given the relationship between Defendant and Plaintiff and Class members, where Defendant became guardian of Plaintiff's and Class members' PII, Defendant became a fiduciary by its undertaking and guardianship of the PII, to act primarily for Plaintiff and Class members, (1) for the safeguarding of Plaintiff and Class members' PII; (2) to timely notify Plaintiff and Class members of a Data Breach and disclosure; and (3) to maintain complete and accurate records of what information (and where) Defendant did and does store.

164. Defendant has a fiduciary duty to act for the benefit of Plaintiff and Class members upon matters within the scope of Defendant's relationship with them—especially to secure their PII.

165. Because of the highly sensitive nature of the PII, Plaintiff and Class members would not have entrusted Defendant, or anyone in Defendant's position, to retain their PII had they known the reality of Defendant's inadequate data security practices.

166. Defendant breached its fiduciary duties to Plaintiff and Class members by failing to sufficiently encrypt or otherwise protect Plaintiff's and Class members' PII.

167. Defendant also breached its fiduciary duties to Plaintiff and Class members by failing to diligently discover, investigate, and give notice of the Data Breach in a reasonable and practicable period.

168. As a direct and proximate result of Defendant's breach of its fiduciary duties, Plaintiff and Class members have suffered and will continue to suffer numerous injuries (as detailed *supra*).

SEVENTH CAUSE OF ACTION
Violation of California's Unfair Competition Law (UCL)
Cal. Bus. & Prof. Code § 17200, *et seq*.
(On Behalf of Plaintiff and the Class)

169. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

170. Defendant engaged in unlawful and unfair business practices in violation of Cal. Bus. & Prof. Code § 17200, *et seq*. which prohibits unlawful, unfair, or fraudulent business acts or practices ("UCL").

171. Defendant's conduct is unlawful because it violates the California Consumer Privacy Act of 2018, Civ. Code § 1798.100, *et seq*. (the "CCPA") and other state data security laws.

172. Defendant stored the PII of Plaintiff and the Class in its computer systems and knew or should have known it did not employ reasonable, industry standard, and appropriate

security measures that complied with applicable regulations and that would have kept Plaintiff's and the Class's PII secure to prevent the loss or misuse of that PII.

173. Defendant failed to disclose to Plaintiff and the Class that their PII was not secure. However, Plaintiff and the Class were entitled to assume, and did assume, that Defendant had secured their PII. At no time were Plaintiff and the Class on notice that their PII was not secure, which Defendant had a duty to disclose.

174. Defendant also violated California Civil Code § 1798.150 by failing to implement and maintain reasonable security procedures and practices, resulting in an unauthorized access and exfiltration, theft, or disclosure of Plaintiff's and the Class's nonencrypted and nonredacted PII.

175. Had Defendant complied with these requirements, Plaintiff and the Class would not have suffered the damages related to the data breach.

176. Defendant's conduct was unlawful, in that it violated the CCPA.

177. Defendant's acts, omissions, and misrepresentations as alleged herein were unlawful and in violation of, inter alia, Section 5(a) of the Federal Trade Commission Act.

178. Defendant's conduct was also unfair, in that it violated a clear legislative policy in favor of protecting consumers from data breaches.

179. Defendant's conduct is an unfair business practice under the UCL because it was immoral, unethical, oppressive, and unscrupulous and caused substantial harm. This conduct includes employing unreasonable and inadequate data security despite its business model of actively collecting PII.

180. Defendant also engaged in unfair business practices under the "tethering test." Its actions and omissions, as described above, violated fundamental public policies expressed by the California Legislature. *See, e.g.*, Cal. Civ. Code § 1798.1 ("The Legislature declares that . . . all individuals have a right of privacy in information pertaining to them . . . The increasing use of computers . . . has greatly magnified the potential risk to individual privacy that can occur from the maintenance of personal information."); Cal. Civ. Code § 1798.81.5(a) ("It is the intent of the

Legislature to ensure that personal information about California residents is protected."); Cal. Bus. & Prof. Code § 22578 ("It is the intent of the Legislature that this chapter [including the Online Privacy Protection Act] is a matter of statewide concern."). Defendant's acts and omissions thus amount to a violation of the law.

181. Instead, Defendant made the PII of Plaintiff and the Class accessible to scammers, identity thieves, and other malicious actors, subjecting Plaintiff and the Class to an impending risk of identity theft. Additionally, Defendant's conduct was unfair under the UCL because it violated the policies underlying the laws set out in the prior paragraph.

182. As a result of those unlawful and unfair business practices, Plaintiff and the Class suffered an injury-in-fact and have lost money or property.

183. For one, on information and belief, Plaintiff's and the Class's stolen PII has already been published—or will be published imminently—by cybercriminals on the dark web.

184. The injuries to Plaintiff and the Class greatly outweigh any alleged countervailing benefit to consumers or competition under all of the circumstances.

185. There were reasonably available alternatives to further Defendant's legitimate business interests, other than the misconduct alleged in this complaint.

186. Therefore, Plaintiff and the Class are entitled to equitable relief, including restitution of all monies paid to or received by Defendant; disgorgement of all profits accruing to Defendant because of its unfair and improper business practices; a permanent injunction enjoining Defendant's unlawful and unfair business activities; and any other equitable relief the Court deems proper.

EIGHTH CAUSE OF ACTION
Violations of the California Consumer Privacy Act ("CCPA")
Cal. Civ. Code § 1798.150
(On Behalf of Plaintiff and the Class)

187. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

188. Defendant violated California Civil Code § 1798.150 of the CCPA by failing to implement and maintain reasonable security procedures and practices appropriate to the nature of

the information to protect the nonencrypted PII of Plaintiff and the Class. As a direct and proximate result, Plaintiff's and the Class's nonencrypted and nonredacted PII was subject to unauthorized access and exfiltration, theft, or disclosure.

189. Defendant is a "business" under the meaning of Civil Code § 1798.140 because Defendant is a "corporation, association, or other legal entity that is organized or operated for the profit or financial benefit of its shareholders or other owners" that "collects consumers' personal information" and is active "in the State of California" and "had annual gross revenues in excess of twenty-five million dollars ($25,000,000) in the preceding calendar year." Civil Code § 1798.140(d).

190. Plaintiff and Class Members seek injunctive or other equitable relief to ensure Defendant hereinafter adequately safeguards PII by implementing reasonable security procedures and practices. Such relief is particularly important because Defendant continues to hold PII, including Plaintiff's and Class members' PII. Plaintiff and Class members have an interest in ensuring that their PII is reasonably protected, and Defendant has demonstrated a pattern of failing to adequately safeguard this information.

191. Pursuant to California Civil Code § 1798.150(b), Plaintiff mailed a CCPA notice letter to Defendant's registered service agents, detailing the specific provisions of the CCPA that Defendant has violated and continues to violate. If Defendant cannot cure within 30 days—and Plaintiff believes such cure is not possible under these facts and circumstances—then Plaintiff intends to promptly amend this Complaint to seek statutory damages as permitted by the CCPA.

192. As described herein, an actual controversy has arisen and now exists as to whether Defendant implemented and maintained reasonable security procedures and practices appropriate to the nature of the information so as to protect the personal information under the CCPA.

193. A judicial determination of this issue is necessary and appropriate at this time under the circumstances to prevent further data breaches by Defendant.

TENTH CAUSE OF ACTION
Declaratory Judgment
(On Behalf of Plaintiff and the Class)

194. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

195. Under the Declaratory Judgment Act, 28 U.S.C. §§ 2201, *et seq*., this Court is authorized to enter a judgment declaring the rights and legal relations of the parties and to grant further necessary relief. The Court has broad authority to restrain acts, such as those alleged herein, which are tortious and unlawful.

196. In the fallout of the Data Breach, an actual controversy has arisen about Defendant's various duties to use reasonable data security. On information and belief, Plaintiff alleges that Defendant's actions were—and *still* are—inadequate and unreasonable. And Plaintiff and Class members continue to suffer injury from the ongoing threat of fraud and identity theft.

197. Given its authority under the Declaratory Judgment Act, this Court should enter a judgment declaring, among other things, the following:

a. Defendant owed—and continues to owe—a legal duty to use reasonable data security to secure the data entrusted to it;

b. Defendant has a duty to notify impacted individuals of the Data Breach under the common law and Section 5 of the FTC Act;

c. Defendant breached, and continues to breach, its duties by failing to use reasonable measures to the data entrusted to it; and

d. Defendant breaches of its duties caused—and continues to cause—injuries to Plaintiff and Class members.

198. The Court should also issue corresponding injunctive relief requiring Defendant to use adequate security consistent with industry standards to protect the data entrusted to it.

199. If an injunction is not issued, Plaintiff and the Class will suffer irreparable injury and lack an adequate legal remedy if Defendant experiences a second data breach.

200. And if a second breach occurs, Plaintiff and the Class will lack an adequate remedy at law because many of the resulting injuries are not readily quantified in full and they will be

forced to bring multiple lawsuits to rectify the same conduct. Simply put, monetary damages—while warranted for out-of-pocket damages and other legally quantifiable and provable damages—cannot cover the full extent of Plaintiff and Class members' injuries.

201. If an injunction is not issued, the resulting hardship to Plaintiff and Class members far exceeds the minimal hardship that Defendant could experience if an injunction is issued.

202. An injunction would benefit the public by preventing another data breach—thus preventing further injuries to Plaintiff, Class members, and the public at large.

PRAYER FOR RELIEF

Plaintiff and Class members respectfully request judgment against Defendant and that the Court enter an order:

A. Certifying this case as a class action on behalf of Plaintiff and the proposed Class, appointing Plaintiff as class representative, and appointing his counsel to represent the Class;

B. Awarding declaratory and other equitable relief as necessary to protect the interests of Plaintiff and the Class;

C. Awarding injunctive relief as necessary to protect the interests of Plaintiff and the Class;

D. Enjoining Defendant from further unfair and/or deceptive practices;

E. Awarding Plaintiff and the Class damages including applicable compensatory, exemplary, punitive damages, and statutory damages, as allowed by law;

F. Awarding restitution and damages to Plaintiff and the Class in an amount to be determined at trial;

G. Awarding attorneys' fees and costs, as allowed by law;

H. Awarding prejudgment and post-judgment interest, as provided by law;

I. Granting Plaintiff and the Class leave to amend this complaint to conform to the evidence produced at trial; and

J. Granting other relief that this Court finds appropriate.

DEMAND FOR JURY TRIAL

Plaintiff demands a jury trial for all claims so triable.

Dated: July 1, 2024

Respectfully Submitted,
